

***SIMA Foray list for Saturday, November 01, 2014***  
***Boise Idaho and surrounding Mts.***

	<b><i>GENUS</i></b>	<b><i>SPECIES</i></b>	
1	Agaricus	campestris	
2	Agaricus	xanthodermus	
3	Amanita	muscaria	formosa
4	Bjerkandera	adusta	
5	Bolbitius	vitellinus	
6	Bovista	pila	
7	Cantharellus	roseocanus	
8	Chlorophyllum	rhacodes	
9	Clavariadelphus	truncatus	
10	Clitocybe	species	
11	Coprinellus	micaceus	
12	Coprinus	comatus	
13	Cortinarius	phoeniceus	occidentalis*
14	Flammulina	velutipes	
15	Hericium	coralloides	
16	Lactarius	fragilis	group
17	Lactarius	torminosus	
18	Leucoagaricus	leucothites	
19	Leucoagaricus	rubrotinctus**	group
20	Lyophyllum	decastes	
21	Mycena	vulgaris	vulgaris
22	Neolecta	vitellina	
23	Pholiota	populnea	
24	Pleurotus	ostreatus	
25	Pluteus	cervinus	
26	Ramaria	rubella	
27	Russula	pectinata	group
28	Tricholoma	populinum	
29	Xeromphalina	species	

\*Now called *C. smithii*, by some *C. purpureus* by others.

\*\*I almost never add a species to the list, unless we have a mycologist at our foray, but, this mushroom fit the description very well, and there is ample reason (from literature) to believe this taxon is in Idaho.
